

PROJECT UPDATE

February 27, 2018

REGIONAL SUBSIDIARY OFFICIALLY ESTABLISHED

A regional subsidiary has officially been established by the five catchment councils to assume responsibility for the construction, management and ongoing maintenance of all flood mitigation works as part of the Brown Hill Keswick Creek Stormwater Project.

Known as the "Brown Hill Keswick Creek Stormwater Board", the regional subsidiary has been approved by the South Australian Government to act on behalf of the five catchment councils to manage the implementation of the approved Brown Hill Keswick Creek Stormwater Management Plan.

Advertising for Brown Hill Keswick Creek Stormwater Board member applications will soon commence.
