TREES CLARIFICATION – *EASTERN COURIER MESSENGER*

The “Ancient red gum facing the axe” headline that appeared in the Eastern Courier Messenger on 24/6/2015 was incorrect, with the Brown Hill Keswick Creek Stormwater Project having made it clear that the two trees in question in the article do not have to be removed.

Furthermore, any flood mitigation works in the vicinity of these prominent trees will be carefully managed to ensure their preservation.

Terry Buss
Project Chair, Brown Hill Keswick Creek Stormwater Project
